Additional Comments:

I enjoyed every moment of this course. It helped me build a good base for Proglamming. The instructor also inspired me a lot and my interest in this course would not have been as high as they are now if he didn't teach me.

Additional Comments:

I have mixed feelings about the course. This course is heavily work loaded. I would prefer more information on the minor details of programming, however, the instructor is will knowledgeable and does his best. The textbook needs to be different or better related to the course. The TA's are a big help and there should be more of them, who are available more than twice a week.

Additional Comments:

The difficulty of this "Introductory" class is a little extreme. The professor assigns homework that requires knowledge of concepts that we have not learned; multiple times he has included a wikipedia link for us to teach ourselves (but these are not simple concepts). Overall, he is a good professor, he just expects a lot from an introductory class.

Additional Comments:

Stytchev did something that no other programming teacher has ever succeeded in doing, he kept lectures interesting. He actually made the students laugh, which really keeps you alert and awake, and learning. He is an excellent teacher and ISU is lucky to have him.

Additional Comments:

Alex is an amazing instructor. I learned much more in this class than I originally expected to, and I also have a much clearer idea of what I want my future to look like and the steps I need to take to get there.

The teaching methodology Alex uses and the expectations for students are, I think, invaluable to young programmers, and I wish more classes were taught this way.

Additional Comments:

I'd really want the TA's to try and not drift off core concepts or "just brush over them" then go into deeper/complex content not appropriate for the class. If didn't help at all that this happened on a consistent basis. But great professor, very knowledgeable.

Additional Comments:

Alex occasionally comes off as condescending when trying to adequately explain that this isn't an easy class, and that programming isn't simple.

Despite that, he does an amazing job reinforcing ideas with analogies (pointers), videos (pointers), and demonstrations (recursion).

Excellent professor  
I learned a lot!

Thank you!

I feel it would be helpful for you to have a more updated website. Also I think it would be helpful to give some explanation of how to get the most out of valgrind.

Additional Comments:

Too much outside work was expected even compared to other sections. I found myself without time at all to finish homework and TA/Prof office hours were unavailable with my already heavy schedule.
